* 4 Cutting/shaving tires is not allowed. Tires can be mounted on wheels with double side tapes. Tape thickness must be similar to the R246-1041/R246-1042 and can be taped up to one round. Tire diameter is measured at the smallest spot on the front and largest spot on the rear. If tapes are used to increase tire diameter, the driver will receive a one-year suspension.
* 5 Applying chemicals that can affect the race track condition is not allowed.
